

## How to View Additional student Information and Attendance

### Promonitor

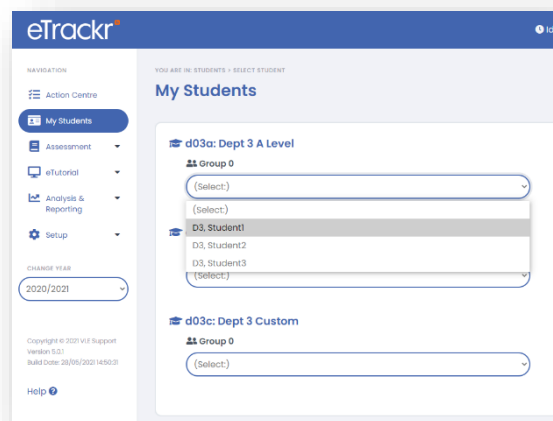

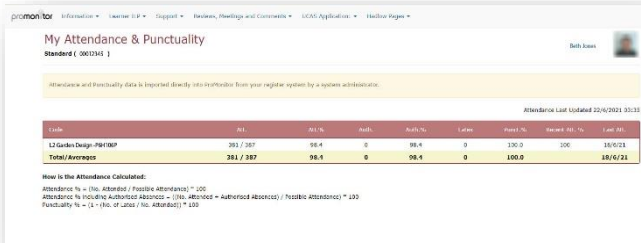

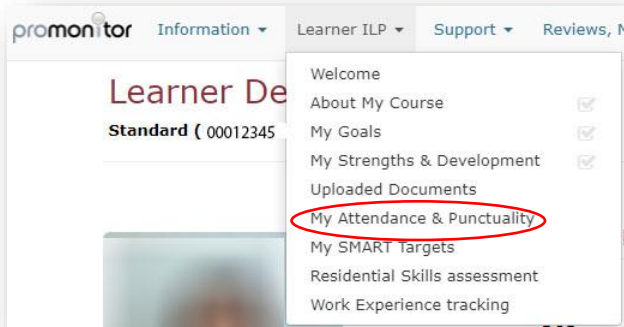

### eTrackr

From the eTrackr home page click on **My Students** on the left of the page.

Within **My Students** you will see your list of **courses** with a drop down to select any **student** in that group.

Selecting a student will take you to the students **Dashboard**. Here you can expand the **Additional Info** and the **Attendance Detail** to get more information.
